

Keio University COE:
Integrative Mathematical Science
Progress in Mathematics Motivated by Natural and Social Phenomena

An International Meeting Noncommutative Geometry, K-theory and Physics 2005

Organized by:

H. Moriyoshi (Keio Univ.), T. Natsume (Nagoya Inst. Tech.) and S. Watamura (Tohoku Univ.)

Date: From March 4 to March 7, 2005

Venue: International Productivity Center

神奈川県葉山町湘南国際村

<http://www.js-ipc.gr.jp> TEL: 046-858-2900

Speakers:

T. Araki (Tohoku University)

P. Baum (Pennsylvania State University, U.S.A)

P. Bouwknegt (Australian National University, Australia)

L. Dabrowski (SISSA, Italy)

A. Gorokhovskiy (University of Colorado, U.S.A)

H. Kajiura (Yukawa Inst. for Theoretical Physics, Kyoto)

G. Landi (University of Trieste, Italy)

R. Nest (University of Copenhagen, Denmark)

P. Polesello (Universita di Padova, Italy)

A. Sako (Keio University)

N. Sasakura (Yukawa Inst. for Theoretical Physics, Kyoto)

Y. Soibelman (Kansas State University, U.S.A)

H. Takai (Tokyo Metropolitan University, Tokyo)

Series of Lectures on:

“The Baum-Connes Conjecture” by P. Baum

“D-brane and K-theory” by P. Bouwknegt
